This is a message from the State Water Resources Control Board.

To All Wastewater Agencies and Interested Parties,

The Division of Financial Assistance (DFA) is conducting a survey of sewer rates and connection (capacity) fees for Calendar Year 2018. The survey information assists us with providing communities with financing to address water quality problems throughout California and also benefits communities to better serve their constituents. In order to make the process as easy as possible, we have developed an online survey and provided a copy of the survey questionnaire to assist in gathering the information necessary to complete the online survey. The online survey should take approximately 15 minutes to complete after you gather the information. We ask that you please complete the survey at your earliest convenience. The online survey is available via the following link:
